Logo / Favicon

"AF" monogram — ink tile, off-white letters, red underline bar.

Style Note

Space Grotesk for headings, Inter for body text — sharp but readable, like a real data tool, not a template. Ink (#1B1F1D) on warm white (#F6F6F4), one red accent (#9E2B25) reserved only for urgency: risk flags, the CTA button, nothing else so it stays meaningful instead of decorative.
